The Gallery's [Enrichment Program](#) is offering art workshops for Stage 4 & 5 Students in Term 3!

Our program will begin with a guided tour of *ROUND*: an artist-led exhibition by mid-career artists whose practices include painting, sculpture, construction, installation, and video, incorporating diverse media, materials and colour. The artists' work examines 'roundness'—exploring interpretations of circularity, curvature, bending— through exploration of shape, space and colour. Round highlights the problems, questions and answers of individual art practice, whilst collectively reflecting broader themes and subjects of popular culture, current affairs and global politics.

The tour will be followed by a workshop led by local artist and educator [Kate Stehr](#). In this workshop students will learn how to create a round form using cane and coloured crepe paper and will explore elements of design including line, colour, and negative space. Students will use finished sculptures to draw abstracted forms using shadow play.
